"The Weld that Held."

I HAVE installed the Oxy-Acetylene System of Blow-pipe Welding, the First and only plant of its kind in the North of Scotland. By the use of this system I am enabled to effectively Weld any Metal, whether Cast Iron, Steel, Brass, Copper, or their Alloys. As no hammer is required, it is especially adapted for light or delicate work, which would be damaged by Forge Welding. Again it is far more cleanly than Forge Welding or Brazing, and in fact it entirely supersedes Brazing. Any article that can be Brazed can be Welded.

It is a true union by fusion of metal being joined. The system is in constant use at my works here on work of a widely varying nature, including the Welding of Tubes and Rods, Welding of Sheet Iron and Steel from 1/16" to 3/8" thick. The Repair of Flyers, Roving Screws, Loom Flanges, and the filling in of Thread Marks on Textile Machine parts. Repair of Motor or Cycle parts in great Variety.

As to cost, it greatly depends on the nature of the metal under treatment; but taken over all its cost is much the same as Riveted or Brazed Work, and of course is much neater. I will be pleased to weld samples for anyone, and quote prices; samples, however, to be paid for.

DUNDEE DIRECTORY

1908-1909.

GENERAL NOTICE.

QUIETUDE, relieved by occasional accessions of hopefulness, has dominated the city and its affairs during the year. In certain aspects much progress has been made; in others the *status quo* maintained. Looked at from any point, Dundee can give a good account of itself. In no way has it receded, and, with the exception of one or two in the case of textiles, there have been few lapses. Municipally, educationally, and socially it has added to its prestige; and undertakings of importance, which last year were in their preliminary stages, have reached completion. It has annexed, improved, embellished, projected, and another year will see the fruition of schemes which still further will solidify its position as a progressive city. Industry, whether relating to the staple trade or that connected with minor branches, compared with conditions which existed a few years since, is in a good way. In some instances there has been a set-back; but, whilst that is true, it must be admitted there were at the same time compensations which more than counterbalanced this. The financial crisis in America, though more or less anticipated, was the only thing which caused an unwonted flutter in our "Cowgate" dovecotes. Related as we are to the States, which are large buyers of our products, the progress of the panic was watched with a keenness which only outstanding incidents can arouse. A gratifying feature during the year was the absence of serious labour embroilment. Disputes which ended in strikes occurred in one or two firms, and in others wage conditions caused disagreement. Fortunately these divergencies, which at first looked ominous, were amicably settled. Nor has India, our much-vaunted rival, excited involuntary trepidation. This unwonted tranquility on a subject which at best is a thorny one has given rise to the question—Has the Calcutta Bogey been laid? Scrutinising, therefore, the trade of the city as a whole, there is reason for gratification with the results of the year.

Great as has been the development of the city commercially in the near past, it is evident we are on the eve of the unfolding of collateral issues, which in their scope will wield great influence upon its future intellectual well-being and status. Our educational authorities, who have hitherto been content to confine themselves to the administration of purely codified branches of education, are awakening to higher ideals of their responsibilities. More than ever it is realised that if Dundee is to keep its place in the markets of the

world provision inevitably must be made for the attainment of an end so much desiderated. This will only be achieved in the specific training and equipment of youth. Science in its many phases is attracting numerous students, and for the higher branches of technical tuition there are increasing calls. To grapple efficiently with these newer conditions—the evolution from a lower to a higher educational plane—the School Board is bestirring itself. Harris Academy is undergoing considerable extension to accommodate pupils in the advanced standards of practical technique; and the scope of the supplementary classes has been widened to facilitate similar instruction. In the evening continuation schools the curricula are undergoing readaptation to enable young men to engage in rudimentary study of the first principles of art and science before entering upon a wider field. In the academies, too, special preparatory instruction is imparted to pupils whose purpose in life is to follow callings in the skilled performance of which a knowledge of scientific mechanics is imperative. Upon this phase of education the forces of enlightened opinion are focussed, and it is expected that with the facilities which will be provided by the new Technical Institute in Bell Street, a great stimulus will be given to the class of practical work for which it has been promoted. University College is producing splendid results in the arena of education. Its reputation as a centre for specific tuition is reaching all parts of Scotland, and it is in consequence largely attended by youths who intend to adopt professional careers. It is understood that the Directors have had under consideration the launching of a great scheme of College extension, designed to embrace, amongst other forms of education, the most up-to-date methods of dealing with engineering, electricity, and constructive science. The physics laboratory, the gift of Dr Carnegie, is almost finished, and will be opened a few months hence.

Speculative building, which a few years ago was in full activity, is practically in abeyance. The causes which have led to this are explicit. Cottage, villa, and tenement property, of which there was a plethora, have stagnated the market, and the proposed legislation on the imperial topic of land values has acted as a wholesome deterrent upon rash projectors. At the same time, whilst little has been done in that direction, it has to be explained that a number of public and semi-public structures were dealt with. Additions to mills and factories and the erection of warehouses have been numerous. The large school at Ancrum Road, the extension of which has more than doubled the accommodation, is again in full operation. Two other schools to the order of the Board are under weigh—one to meet the requirements of the east end, and the other as a substitute for St Salvador's School, which has become unsuitable. Prominent amongst most recent Corporation undertakings are the Carnegie Branch Libraries at Blackness Avenue and Strathmartine Road, Coldside. Elegant, imposing, commodious, these useful institutions will be a credit to the city and the city architect, who designed them. In this connection it is necessary to add that the public mind was unduly agitated over the proposal

to construct an underground central reading-room and appurtenances contiguous to the Free Library Buildings in Albert Square. The proposal, which met with opposition and adverse criticism, was opprobriously designated the "cellar" scheme; and there is a probability that effect would have been given to it but for the timely intervention of Sir William Ogilvy Dalgleish, who came to the relief of the responsible authorities by handing over a gift of £3,000, to be devoted to the purchase of a suitable site above ground. By this arrangement, a new public edifice of dignified proportions will soon grace the centre of the city. Another important undertaking, and one which has been the subject of intermittent negotiation—namely, the new Electric Generating Station, a scheme of some magnitude—is now going forward, a difficulty with the Harbour Trustees as to location at Carolina Port having been amicably arranged. Affiliated to this scheme, and forming part of it, is the provision made for two auxiliary stations, one of which will be situated in Lochec, and the other at the north-east end of the city. Of other probable municipal enterprises, there are two—the extension of King's Cross Hospital by the addition of wards for the treatment of diphtheria, and the long-talked of rehabilitation of Central Baths, West Protection Wall. The grandiose scheme, formulated by Lord Provost Longair, and which was to embrace great utilitarian municipal improvements, including a new Town Hall, met with a rather mixed reception, and the proposal, original and striking in its conception, is practically abandoned. The improvement of the City Churches is in active operation. A few months hence there is every likelihood tramway cars will be carried to a terminus at the extremity of South Union Street. A public bowling green was opened in Victoria Park on Saturday, May 30. But by far the most important piece of municipal legislation of the year is that which relates to the inclusion within the burgh of Downfield and a strip of debatable land between the city and West Ferry. This desirable arrangement was effected through the operation of a Provisional Order, the Royal Assent to which was given 26th June last year. Tramway communication between Downfield and the city was inaugurated on subsequent Christmas Day.

The long-expected widening of Cowgate is within measurable distance of realisation. St Andrew's Street area, which was dealt with last year, has paved the way for early development on the proposed new street line of Cowgate. Advantage has already been taken of the amenities these streets afford as business centres. The site at north-west corner of St Andrew's Street, and having a frontage to Cowgate, has been feued for the erection of a spacious place of amusement, to be designated "The King's Theatre and Hippodrome." It is expected the theatre will be opened about Christmas ensuing.

In close proximity Messrs James P. Mathew & Co., proprietors of the DIRECTORY, have erected extensive printing works. The arrangement of the whole structure has been carried through on a well-designed plan, provision being made for conducting on the most efficient principles the various handicrafts with which the firm is associated.

The works, besides, are so constructed that when Cowgate is completed connection with a departmental section, allocated to stationary, with a frontage to the new thoroughfare, will be made.

The year in some other aspects has been notable. On 23rd August last the city was favoured with a visit from Royalty. On that date Queen Alexandra, accompanied by Princess Victoria, whilst *en route* from Balmoral to Christiania, embarked on board the Royal yacht Victoria and Albert, which was moored in the Tay. The august visitors, on arrival at Tay Bridge Station, were received by Lord Provost Longair, the Magistrates, and numerous officials and public functionaries. At the Station, and at Craig Pier, from which latter Her Majesty was conveyed by steam pinnacle to the yacht, the decorations were profuse; and from the shipping and public buildings a plethora of bunting fluttered gaily. This is the second visit of the Royal lady to the city.

The political waters of the burgh were mightily troubled in April. Mr Edmund Robertson, one of our Parliamentary representatives, and Secretary to the Admiralty, having accepted a Peerage, to which he was formally installed on May 27th under the title of Baron Lochee of Gowrie, a bye-election followed. Four candidates entered the field. These were—Mr Winston Churchill (Liberal), President of the Board of Trade, his appointment to that office necessitating re-election; Sir George Washington Baxter (Unionist), of the firm of Messrs Baxter Brothers & Co., Limited; Mr George Harold Stuart (Labourist), Parliamentary Secretary, Postmen's Federation, London; and Mr Edwin Scrimgeour (Prohibitionist), member of Dundee Town Council. One of the keenest contests ever witnessed in the country ensued, colour being lent to a highly excited period by the demonstrations of a body of women, designated "Suffragettes," whose aim is to secure the extension of the franchise to women. The date of election was Saturday, 9th May. So keen was the interest manifested that in all parts of the city business was almost brought to a standstill. The poll was declared shortly after midnight from the piazza of Sheriff Court House Buildings, in front of which a vast crowd, estimated at about 30,000 persons, had assembled. The announcement of Mr Churchill's victory was received with demonstrations of delight. The following are the number of votes recorded for the respective candidates, viz. :—Mr Churchill, 7079; Mr Baxter, 4,370; Mr Stuart, 4014; and Mr Scrimgeour, 655. Through the courtesy of Mr Churchill, we are enabled to give that gentleman's portrait as a frontispiece.

Harbour affairs are prospering, and shipping prospects are encouraging.

Many local personages of light and leading have passed away during the year. Amongst these are enumerated Mr G. W. Boase; ex-Bailie David Mathers; Mr John Maclauchlan, Public Librarian; Mr James Smith, ex-Police Treasurer; Mr W. B. Valentine, the well-known photographer; Mr David Bannerman, City Chamberlain; and Mr William Scott, manufacturer.

A Private Card becomes a Post Card when it has a halfpenny stamp affixed to its face. It must be composed of ordinary cardboard, not thicker than the material used for the thickest official Post Card, and not thinner than the material used for the thinnest. They may not exceed $5\frac{1}{2}$ by $3\frac{1}{2}$ inches in size, or be less than 4 by $2\frac{3}{4}$ inches. The rules in the preceding paragraph also apply to Private Cards.

Inland Post Cards are sold at the following rates:—

Stout Cards ($4\frac{1}{2}$ in. by $3\frac{1}{2}$ in.) 11 for 6d, or 5s per parcel of 110.

Thin Cards ($5\frac{1}{2}$ in. by $3\frac{1}{2}$ in.) 11 for 6d, or 10s per parcel of 220.

Reply Stout Cards 11 for 1s, or 5s per parcel of 55.

Reply Thin Cards 11 for 1s, or 10s per parcel of 110.

EXPRESS DELIVERY OF LETTERS AND PARCELS.

There are three systems by which letters and parcels can be specially delivered, as under:—

(1) *By special messenger all the way.* For a letter or packet the Express fee (inclusive of charges for omnibus, tramcar, railway, &c.), is:—For every mile or part of a mile, 3d; and on each packet weighing more than 1 lb. a weight fee of 3d. (Ordinary postage is not charged). Every packet must be handed in over the counter, and must have the words "Express Delivery" boldly marked above address. All charges must be prepaid by postage stamps affixed to a form provided by the Post Office.

If the sender desires, or it is otherwise necessary, that a special conveyance be used, the fare or cost of such must be paid in addition to the mileage fee. The weight fee is not charged in such a case.

On the delivery of an Express packet, the messenger may take a reply, or perform a further delivery service. The fee must be prepaid either by the sender of the first service or by the sender of the reply or further service.

When several packets are tendered by one sender for delivery by the same messenger at different addresses, or to different persons at same address, the Express fee of 3d a mile will be charged for the full distance to be traversed by the messenger, and an additional fixed charge of 1d for each article above one.

- (2) *By special messenger after transmission by post.* In addition to the full ordinary postage the Express fee is :—For every mile or part of a mile from office of delivery, 3d (weight fee is not charged). Letters may be posted like ordinary letters, but they must be marked “Express Delivery,” and have a thick perpendicular line drawn on each side.
- (3) *By special delivery in advance of the ordinary mail.* Persons who desire at any time to receive their letters or parcels in advance of the ordinary delivery may have them delivered by special messenger on payment of the following fees, viz. :—The full Express fee of 3d a mile as for one packet, and 1d for every 10, or less number of additional packets.

INLAND PARCEL POST.

Parcels not exceeding 11 lbs. in weight, 3 ft. 6 in. in length, or 6 ft. in length and girth combined, are received at any Post Office for transmission between places in the United Kingdom. The rates of postage are :—

Not exceeding 1 lb. in weight,	3d	Exc. 7 lbs. and not exc. 8 lbs.,	8d
Exc. 1 lb. and not exc. 2 lbs.,	4d	„ 8 lbs. „ 9 lbs.,	9d
„ 2 lbs. „ 3 lbs.,	5d	„ 9 lbs. „ 10 lbs.,	10d
„ 3 lbs. „ 5 lbs.,	6d	„ 10 lbs. „ 11 lbs.,	11d
„ 5 lbs. „ 7 lbs.,	7d		

Postage stamps to the required amount must be affixed by the sender, and parcels must not be posted in a letter-box, but must be taken into a Post Office and handed over the counter. A certificate of posting may be had on application.

Parcels containing fish, game, meat, eggs, &c., or razors, scissors, needles, knives, forks, or other sharp instruments, are not accepted unless securely packed so as to guard against risk of injury to other parcels. Liquids or semi-liquids, such as jellies, pickles, paint, varnish, &c., are not accepted unless in bottles or cans securely stoppered; nor powders, unless well packed. Live bees are allowed to pass by letter or Parcel Post, if sent in suitable cases, so packed as to avoid all risk of injury.

In order to facilitate the return of parcels which cannot be delivered, it is most desirable that the name and address of the sender should appear on the outside of every parcel.

REGISTRATION AND COMPENSATION—INLAND.

Correspondence of any kind (including parcels) can be registered. The ordinary registration fee is 2d, in addition to the postage.

Everything intended for registration must be handed to an officer of the Post Office, and a receipt obtained. Nothing intended for registration must be dropped into a letter-box. The packet must be made up in a strong cover fastened with gum or other adhesive, but this does not apply to post-cards halfpenny packets, nor newspapers. If it be desired to secure compensation for damage to a packet (other than a parcel), it must bear the words “Fragile with care.”

Packets for registration must be marked in the bottom left-hand corner with the word “Registered,” and, when the fee exceeds 2d, with the amount of the fee proper to the value up to which the sender desires to secure compensation, thus, “Registered 3d,” and so on. The sender of an Inland postal

packet may obtain an acknowledgment of its due delivery by paying, at the time of posting, a fee of 2d in addition to the postage and registration fee.

Inland postal packets containing coin, watches, or jewellery, if posted without registration, are subject to compulsory registration, and are charged on delivery with a fee of 4d, in addition to the ordinary postage. Letters containing uncrossed Postal Orders in which the name of the payee has not been inserted, uncrossed cheques or dividend warrants, bank notes, postage stamps, or any article (other than coin and jewellery) of a value exceeding 0s, will, when found open in the post, or when opened in the Returned Letter Office, be subject to registration, and be chargeable with a registration fee of 2d. Money of any kind must be enclosed in a Registered Letter Envelope and transmitted by Registered Letter Post. The compensation in respect of coin will in no case exceed £5.

The Postmaster-General will (subject to certain rules) pay compensation for the loss or damage of Correspondence as follows:—

(1) *Registered Correspondence (including Parcels).*—

Fee 2d, Compensation	£5	Fee 5d, Compensation	£60
„ 3d, „	£20	„ 6d, „	£80
„ 4d, „	£40	„ 7d, „	£100

and so on at the rate of 1d for every £20 up to—Fee 1/10, Compensation £400.

(2) *Unregistered Parcels.*—Limit of compensation, £2. No compensation is given in respect of money of any kind sent by Parcel Post, whether registered or not, or in respect of jewellery sent by Parcel Post unregistered. To secure compensation a certificate of posting should be obtained when a parcel is posted.

(3) *Express Correspondence.*—Compensation according to the ordinary scale is paid in respect of Correspondence of the kinds specified in Sections (1) and (2), when sent by Express Service; and up to £2 for Unregistered Packets (not money nor jewellery) conveyed by special messenger throughout their whole course.

RE-DIRECTION.

Letters, halfpenny packets, post cards, and newspapers are not liable to additional postage for re-direction, whether re-directed by an officer of the Post Office or by an agent of the addressee after delivery, provided in the latter case at the letters, &c., are re-posted not later than the day (Sundays and public holidays not being counted) after delivery, and that they do not appear to have been opened or tampered with.

Parcels are, when re-directed, liable to additional postage at the prepaid rate for each re-direction, except where the original and corrected addresses are both within a delivery from the same Post Office.

Registered letters, &c., when re-directed, must be taken back to the Post Office to be dealt with as registered.

A Postmaster is not bound to re-direct letters for a person temporarily leaving home (unless the house be left uninhabited), nor to re-direct letters addressed to clubs, hotels, boarding-houses, or lodgings.

POSTE RESTANTE.

Correspondence of any kind to be called for is, as a rule, taken in at all Post Offices except Town Sub-Offices. The words “to be called for” or “Poste Restante” should appear in the address. The Poste Restante is for the accommodation of strangers and travellers, but they may not use it for more than three months.

Parcels addressed to a Post Office to be called for, are kept three weeks, at the end of which period, if not called for, they are returned to the sender.

"BLIND LITERATURE" POST.

Literature impressed for the use of the blind may be sent by post at the following rates:—2 oz., $\frac{1}{2}$ d; 2 lbs., 1d; 5 lbs., $1\frac{1}{2}$ d; 6 lbs., $2\frac{1}{2}$ d. The packet must not contain anything written or printed in ordinary type, except title and contents, and a label for return of the packet. It must bear on the outside the words "Literature for the Blind," and address of sender, and it must be posted either without a cover or in a cover open at both ends.

MONEY ORDERS.

The commission on Inland Money Orders is:—For sums not exceeding £1—2d; £3—3d; £10—4d; £20—6d; £30—8d; £40—10d.

When applying for Money Orders, the public should use the printed "Application Forms," which are supplied gratuitously at all Money Order Offices, and should state thereon as fully as possible the name or designation of the payee.

The remitter of an Inland Order may direct at the time of issue, that the Order be crossed like a cheque thus, & Co., and thus be payable only through a Bank, or he may cross the Order after obtaining it.

If the remitter of an Inland Money Order is desirous of delaying payment for any period not exceeding ten days, he must, at the time of issue, sign his name in the place allotted at the foot of the Money Order, and should inform the Postmaster that he wishes payment to be so deferred.

Money Orders for amounts not exceeding £40 are issued free of charge where required for the remittance of Corporation Duty, Income Tax, Inhabited House Duty, Land Tax, Excise Duties, or Legacy and Succession Duties.

Money may be transmitted by Telegraph Money Order in the United Kingdom. The commission is:—(1) The ordinary Money Order poundage above; (2) a charge at the ordinary Inland rate for the Official Telegraph authorizing payment at the Office of Payment, the minimum being 6d; and (3) a fee of 2d for each order. Any telegraphic communication which the remitter may wish to despatch to the payee must be paid for at the ordinary inland rate.

FOREIGN AND COLONIAL LETTERS.

The prepaid rate of postage on letters for all Foreign Countries (except Egypt) is 2½d for the first ounce, and 1½d for each succeeding ounce; to British Possessions generally and to Egypt the letter rate is 1d per ounce. (See pp. 149-152.)

No letter for a colony or foreign country may exceed 2 feet in length or 1 foot in width or depth. Coupons exchangeable for stamps of the value of 25 centimes (2½d) each (in many foreign countries) can be purchased at the Money Order Office at 3d each, for the prepaying of replies to letters.

FOREIGN AND COLONIAL PRINTED PAPERS AND COMMERCIAL PAPERS.

Articles which may be sent to places abroad under these designations consist of two classes, as follows:—

(a) "Commercial Papers," under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of or extracts from Deeds under private seal, written on stamped or unstamped paper, Way Bills, Bills of Lading, Invoices, and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, letters and post cards of old date which have already served their original purpose, pupils' exercises with corrections, and other papers of a similar description.

(b) "Printed Papers." The articles which may be sent at the rate applicable to Printed Papers are mostly impressions or copies obtained upon paper, parchment or card-board, by means of printing, lithography, engraving, photography, or any other mechanical process easy to recognize. This description includes newspapers, periodical works, books (stitched or bound), pamphlets, sheets of music, visiting cards, address cards, proofs of printing, plans, maps, catalogues, prospectuses, announcements, circulars, notices, engravings, photographs, designs, manuscript for press (when sent with proofs of same), papers impressed for use of the blind, albums of photos, or card-board drawing models stamped in relief, and anything (not glass) usually appurtenant to the before-mentioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission which shall be contained in the same packet. Postage stamps, obliterated or not, and all printed articles constituting the sign of a monetary value, are excluded. The products of the copying press and the typewriter are not admitted, nor, as a rule, are printed papers which have been modified after printing, either by hand or by a mechanical process. But the following exceptions are allowed:—Printed circulars may be dated in manuscript or by a mechanical process, name and address of the sender and of the recipient, as well as his trade or profession, and his address may be added; on printed visiting cards and Christmas cards the address of the sender, or formulas of courtesy in not more than five words may be written, and on printed circulars manuscript corrections and insertions may be made as to names of commercial travellers, dates of journey, dates of departure of ships, names of persons

invited to meetings, and the place, date, and object of the meetings; date of despatch may be inserted in advices of goods; printers' proofs may be corrected in manuscript, errors in other printed documents may be corrected, and figures may be inserted in prices current, stock and share lists, &c.; books, music, photos, engravings, and Christmas cards may contain the invoice relating to them; books may have a dedication inscribed on them; in orders for books printed on cards, the works required or offered may be indicated in manuscript; to cuttings from periodicals, the title and date of the publication may be added. Circulars printed or lithographed in characters resembling those of the typewriter, or produced from typewritten originals, will be admitted, provided that they are handed in at the counter of Post Office, that special attention is called to their nature, and that at least twenty copies are posted at the same time. Blank paper, note-paper or envelopes, and articles of stationery are inadmissible.

The rate of postage on Printed Papers and Commercial Papers for all places abroad is $\frac{1}{2}$ d per 2 oz. For Commercial Papers the lowest charge is $2\frac{1}{2}$ d, for which sum, however, a weight of 10 oz. may be sent. If there be any mixture of the two in the same packet the whole packet is treated as Commercial Papers.

Commercial Papers and Printed Papers may be posted either without a cover, or in an unfastened envelope, or in a cover easily removable for examination without breaking any seal or adhering surfaces. The packet may, however, be tied at the ends with string easy to unfasten.

To secure the return of packets which cannot be delivered, the name and address of the sender should be written or printed outside.

The limit of size for British Colonies or Possessions or non-Union countries are 2 feet in length by 1 foot in width or depth; but to Foreign Countries in the Postal Union the length is limited to 18 inches. If in the form of a roll the limits of size in either case are 30 inches in length and 4 inches in diameter. The limits of weight are from 4 lbs. to 5 lbs. according to destination.

CANADIAN MAGAZINE POST.

British Newspapers, Magazines, and Trade Journals may be sent to Canada at a rate of 1d per lb.; limit of weight, 5 lbs.; limit of size, 2 feet in length by 1 foot in width or depth. They must be posted in covers open at both ends and easily removable. Neither cover nor contents may bear any superscription except title and date and reference to registration, address of sender and addressee, index or reference numbers and letters, the words "with compliments," a reference to any place in the publication, and a request for return in case of non-delivery.

All registered inland Newspapers are admissible under this rate, but any other Newspaper, Magazine, or Trade Journal may be placed on the Register of publications transmissible by Canadian Magazine Post, provided (1) that it be printed and offered for sale in the United Kingdom; (2) that it be published at intervals of not more than thirty-one days; (3) that publication and binding consist only of paper; (4) that not more than five-sixths of the contents consist of advertisements; (5) that title and date be printed on cover or at top of first page and on every detached sheet; (6) that a copy of the publication, with a fee of 5s, be sent every year to the Secretary of the Post Office.

FOREIGN AND COLONIAL SAMPLES.

There is a Sample Post to Foreign Countries and the Colonies generally; but it is restricted to *samples of merchandise or scientific specimens*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually trade samples or specimens, are not admissible.

No article liable to Custom Duties can as a rule be sent as a sample.

The rate of postage is $\frac{1}{2}$ d per 2 oz., except that the lowest charge is 1d, for which sum, however, a weight of 4 oz. may be sent.

Patterns or Samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of seeds, drugs, and such like, may be posted enclosed in boxes or bags fastened in such a manner that they may be readily opened.

There must be no writing or printing upon or in any Sample Packet for non-Union countries, except the address of the person for whom it is intended, the address of the sender, a trade mark or number, the price of the articles, the weight or size, and the quantity to be disposed of, or such as may be necessary to indicate the place of origin or the nature of the merchandise. A packet for a country in the Postal Union may contain Printed Papers, and if the rates for Commercial Papers be paid, it may also contain Commercial Papers.

Liquids, glass, greasy substances, colouring powders, and live bees may be sent only to some foreign countries when they conform to special conditions as to packing, &c.

The limit of weight for British Colonies or Possessions or for non-Union countries is 5 lbs., but for Foreign Countries in Postal Union the limit is 12 oz.

The limit of size for British Colonies or Possessions or for non-Union countries is 2 feet in length by 1 foot in width or depth; and for foreign places in the Postal Union 12 inches in length, 8 inches in width, or 4 inches in depth; unless it be in the form of a roll, in which case the limit of size is 12 inches in length and 6 inches in diameter.

REGISTRATION AND INSURANCE—FOREIGN.

The fee for registration of letters, post cards, commercial and printed papers, and samples, addressed to places abroad, is 2d. Articles to be registered must be enclosed in a strong envelope, and given to an agent of the Post Office. To some countries it is forbidden to send coin, jewellery, or precious articles.

Letters and parcels may be insured (up to certain limits of value) to many foreign countries. Letters must be securely fastened and sealed with private seal, and presented at the counter of a Post Office. Parcels must be substantially packed, and sealed with wax or lead. Seals must be placed over each join or loose flap of the covering, and at the ends of the string. The seals must all have distinct impressions of the same device, such device not consisting merely of straight or curved lines. Parcels containing coin, watches, or jewellery must be enclosed in strong boxes substantially fastened in wrappers of canvas or strong paper, duly sealed. Letters or parcels for insurance must bear the words "Insured for——," according to amount. The sums payable for insurance, including registration, are as follows:—To secure compensation up to £12, a fee of 4d; £24, 6d; and so on at the rate of 2d for every additional £12, up to £400, 5s 10d.

For the insurance of parcels to the United States by the semi-official service, the sums payable are as follows:—For £12, a fee of 6d; £24, 1s; and so on at the rate of 6d for every £12, up to £120, 5s.

COMPENSATION FOR LOSS OR DAMAGE OF UNINSURED PARCELS.

The Postmaster-General will, subject to certain rules, give compensation for the loss or damage of uninsured parcels sent by Parcel Post to various Foreign Countries (to amounts not exceeding 12s and 20s) when such loss or damage takes place while the parcels are under his custody; and in the case of parcels lost or damaged while under the control of the Post Offices of these countries, the Postmaster-General will endeavour to obtain compensation for the senders.

GOVERNMENT INSURANCES AND ANNUITIES.

Insurances may be effected for amounts not less than £5 and not more than £100 to persons between 14 and 65 years of age; and Annuities may be purchased for amounts not less than £1 and not more than £100 on one life. Children between 8 and 14 years of age can be insured for £5. Forms of proposals may be obtained at the Post Office.

DATES OF DESPATCH AND ARRIVAL OF MAILS.

See Separate Table for Parcel Postage and Mails (page 152).

Letters not specially directed by a particular route are, as a rule, forwarded by the first mail despatched.

FOREIGN AND COLONIAL POST CARDS.

Single and Reply Official Post Cards are transmissible to all parts of the world—Single Cards, 1d each; Reply Cards, 2d each. (Official Inland Post Cards are transmissible abroad if the additional postage is supplied by postage stamps being affixed.) Cards used as Post Cards must be of similar substance to the official cards; not exceeding $5\frac{1}{2}$ by $3\frac{1}{2}$ inches, and not less than 4 by $2\frac{3}{4}$ inches. Reply-paid cards of private manufacture must display the title "Post Card" on the address side, but this is not obligatory for single cards of private manufacture. Reply halves of reply-paid cards must bear the words "Post Card—Great Britain and Ireland" and "Reply."

The left-hand half of the address side of a Post Card, as well as the back, may be used for a written communication subject to the following restrictions:—Nothing may be attached except stamps in payment of postage, a gummed label not to exceed 2 by $\frac{3}{4}$ inches bearing address of recipient, a similar label with address of sender, and illustrations and photos on very thin paper completely adherent to the card.

SPOILT STAMPS.

Applications for allowance on spoilt, or unused, postage stamps, embossed envelopes, post-cards, or newspaper wrappers, which have not passed through the post, should be made at the Stamp Office.

POST OFFICE SAVINGS BANK.

Deposits of one shilling, or of any number of shillings, may be made by any person at the Post Office Savings Banks to the extent of £50 in one year ending 31st December, and £200 in all, including interest.

Any person desirous of saving one shilling by means of penny contributions, for deposit in the Post Office Savings Bank, may do so by purchasing with every penny so saved a penny Stamp, and affixing it to a form to be obtained at any Post Office. Instructions as to this form are printed thereon.

FOREIGN AND COLONIAL PARCEL POST.

GENERAL REGULATIONS.

Dimensions.—The dimensions allowed are :—

For Finland, Turkey (Ottoman P.O.'s)—2 feet in any direction.

Parcels which somewhat exceed 2 ft. in length are accepted for transmission to Bulgaria, Corsica, France, Italy, Montenegro, Persia (*via* Russia), Russia-in-Europe, Samoa (*via* Hamburg), provided that their other dimensions are inconsiderable.

For Argentine Republic, Bolivia, Brazil, Cape Verd Islands, Congo Free State, Dahomey, Dominican Republic, Dutch Guiana and East and West Indies, Eritrea, French Congo, French Guiana, French Guinea, French Oceania, French Somali Coast, French West Indies, Greece, Ivory Coast, Madagascar, New Caledonia, Paraguay, Pitcairn Island, Portuguese Timor and West Africa, Reunion, St Pierre and Miquelon, Senegal, Tripoli (Africa), Tunis, Turkey (Austrian Agencies)—greatest length, 2 ft. ; greatest length and girth combined, 4 ft. Parcels slightly exceeding 2 feet in length are admitted (if their other dimensions are small) to Algeria, Comoro Islands, Crete, Cuba, Ecuador, French Indo-China, German South-west Africa, Venezuela.

For Canada—Greatest length, 2 ft. 6 in. ; length and girth combined, 6 ft.

For Mexico—Greatest length, 2 ft. ; greatest length and girth combined, 6 ft.

For places named in the Table of Parcel Postage—other than those detailed above—same as for Inland Parcel Post.

The postage must in all cases *be paid in advance*, by means of postage stamps affixed by the sender. Each parcel must be plainly directed, and should bear the words "Parcel Post" in the upper left-hand corner, and the name and address of the sender. The date of posting should also be added. A parcel must not be posted in a letter box, but, as in the case of the Inland Parcel Post, must be taken into a Post Office and presented at the counter.

Parcels will be liable to Customs duties and regulations, and the sender of each parcel will be required to make a Customs declaration furnishing—upon a special form provided for the purpose, which can be obtained at any Post Office—an accurate statement of the contents and value, the date of posting, and other particulars. Arrangements have been made with many Foreign Countries whereby senders may take upon themselves the payment of the Customs charges if they so desire.

No letter whatever may be sent in a parcel addressed to any Foreign Country, or to many British possessions. Invoices in open envelopes, giving particulars of the goods contained in the parcel may, however, be enclosed.

Parcels containing coin, watches, jewellery, or any article of gold or silver, cannot be sent by Parcel Post to any Foreign Country or British Possession included in the insurance system, unless they are insured for at least part of their value, and packed according to special regulations.

Parcels should be securely packed, and must, if for Foreign Countries, be so sealed that they cannot be opened without the seals being broken.

PACKING AND SEALING.

The rules as regards careful packing must be observed in the case of Foreign and Colonial parcels. More careful and substantial packing is necessary for such parcels than for Inland parcels, owing to the distance over which, as a rule, they are conveyed, the conditions of transit, and climate; and in the case of parcels for certain countries a special form of packing must be employed. Light and bulky parcels containing fragile articles should be packed in strong wooden cases. No compensation is paid for damage to articles insufficiently packed.

For parcels containing liquids and substances which easily liquefy two receptacles must be used. Between the inner receptacle, which contains the liquid, and the outer one, which should be of strong wood or metal, space must be left all round, and this space must be filled with bran, sawdust, or other absorbent material.

Celluloid, unmanufactured or in sheets, must be well packed in strong wooden boxes, and articles composed wholly or partly of celluloid must be in a packing not less strong than stout cardboard, the nature of the goods must be shown on the parcel and on the despatch note when one is used. Liquid celluloid cannot be sent by post.

A parcel for a Foreign Country should be so sealed by the sender that it cannot be opened without breaking the seals or leaving an obvious trace of violation. The seals should bear the impression of a private device of the sender.

POST OFFICE TELEGRAPHS.—INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 6d for the first 12 words, and $\frac{1}{2}$ d for every additional word. Addresses are charged for.

Forms with embossed stamps can be obtained either singly or in books of 20, interleaved, and with a sheet of carbonic paper, price 10s 2d each book.

When the terminal office is a Head Post Office, the amount paid for transmission covers the cost of delivery within three miles or within the town postal delivery when that extends for more than three miles. But when it is not a Head Post Office, the message is delivered free within three miles only. The portage on messages for places beyond the limits of the free delivery will be at the rate of 3d a mile or part of a mile, the charge being reckoned from the limit of the free delivery.

Copies of a telegram directed to more than one person in the same free delivery are delivered at a charge of twopence per copy, in addition to a halfpenny for each word in the address of the copy.

Persons not wishing to send to a Telegraph Office may post a telegram in an envelope addressed "Telegram, Immediate" in a wall or pillar-box, or Sub-Post Office. Telegrams so posted are sent on by next collection to the Telegraph Office for transmission free of extra charge, provided that the proper amounts have been prepaid.

No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "forty-seven." Certain exceptional names, such as O'Neil, MacDonal, De la Rue, are charged for as single words. So, too, are names with the prefix "St," as St Pancras; but double names of persons, like Smith-Payne, are counted as two words.

Abbreviations of words, "can't," "won't," "don't," are counted as single words.

Figures are counted at the rate of five figures to a word. Fractions are counted according to the number of figures employed, one figure being added for the mark of division. In groups of figures a stop is counted as a figure. The symbols o/o, a/c, b/l, and c/o are each counted as one word. In ordinal numbers the affix st, nd, rd, or th is counted as two figures—thus "1st" counts as one word, "1432nd" as two words. When figures are preceded or followed by a letter (except in the case of ordinal numbers), the letter is counted as a word, but letters added to figures to denote the number of a house are counted as figures. Initial letters are each counted as one word, with the exception of the initials of the London Postal Districts, which are counted as one word for each group. Names of towns and villages in the United Kingdom are counted as one word each.

Anyone may register an abbreviated address on payment of a guinea year.

The cost of a reply, not exceeding forty-eight words, may be prepaid, and a reply form will then be delivered to the addressee, who will be at liberty to send his reply, from any telegraph office, at any time within two months.

Telegrams can be repeated, if the sender desires it, by being signalled back from office to office. No copy is, in such case, given to the sender. The charge for repetition is one-half the ordinary tariff. Telegrams containing mercantile quotations or figures, and telegrams written in cypher, or according to a preconcerted code, should always be repeated.

FOREIGN TELEGRAMS.

Foreign telegrams are of two kinds, telegrams in plain language and telegrams in secret language. Those in plain language are composed of words,

figures, and letters conveying an intelligible meaning. Those in secret language are divided into: (1) preconcerted language or code, (2) cypher.

Code language is composed of real words not forming comprehensible phrases, or of pronounceable groups of letters having the appearance of real words. Words of more than ten letters are not allowed. In Code telegrams English, French, German, Italian, Spanish, Portuguese, Dutch, and Latin, may be employed, whilst artificial words must be pronounceable according to the usage of these languages.

Cypher is composed of Arabic figures having a secret meaning, or letters having a secret meaning, and words or combinations of letters not fulfilling the conditions applicable to plain language or code. Letter and figure cypher cannot be combined.

The address of the sender is charged for, if transmitted; in any case it must be written at the foot of the form.

In telegrams written in plain language the length allowed for a word is 15 letters. Additional letters are charged for at the rate of 15 letters to the word.

Subject to the limit as to number of letters, ordinary compound words and names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe, they are counted as so many separate words.

Compound numbers written in words and without break are also counted as single words subject to the same limit as to the number of letters. The name of the office, county, province, and country of destination in the addresses of telegrams are each charged for as one word whatever their length.

Every separate letter or figure is charged for as one word. Groups of letters in cypher and groups of figures are counted at the rate of five to a word. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

If the sender desires to prepay a reply he must insert before the address of the receiver "R P—", which is charged for as one word. A less sum than 10d cannot be accepted in prepayment of a reply.

Books containing 25 forms, each bearing 10d stamp, interleaved, can be obtained, price 21s each.

Your Piano

Is probably a good instrument. In quality and tone it is probably quite satisfactory. And no doubt it is a handsome ornament to your home. But can you play it? Can you play it whenever you wish to? Can you play all the music that appeals to you?

The value of your Piano to you is exactly measured by the amount of music you are able to produce from it.

Would not the Pianola Piano be of far greater value to you?

Why not exchange your Piano for the Pianola Piano? We will allow you full value.

- I. **FAR BETTER GROPPING IS OBTAINED.**
- II. **MOST ECONOMICAL IN USE**, requiring much less attention than any other type of spiral.
- III. **GREATLY INCREASED OUTPUT.** Without increasing the speed of the spiral cylinders the delivery speed may be greatly increased, giving even then a finish quite equal to that given by any other spiral at half the delivery speed. Made in all sections for every purpose where file-edge spirals are in use.

“SIDEROSTHEN” PAINT,

—THE BEST FOR COATING—

Insides of Boilers and Economiser Tubes. It prevents the deposit adhering to the walls of the Boiler or Tube, and thereby greatly reduces the amount of incrustation. What incrustation there is can be easily removed with a brush, leaving the plates clean and smooth.

Galvanized Zinc or Iron Roofing, as it preserves it from decomposition, which no other paint will do.

Gas, Water, and Drain Pipes, as it is not affected by the moisture of the earth.

Gasometers, Tanks, Buoys, and Gutterings, on account of its power of resistance to weather and all atmospheric changes.

Woodwork, exposed to damp or mildew, as “Siderosthen” will effectually prevent it from rotting.

CRIGHTON'S

PATENT WRINGER PLATE.

The plate herewith has been designed to meet much-felt want in the Wash-house, as the methods hitherto adopted for fixing the Wringer to the earthenware tubs have been invariably unsuccessful, and have caused much inconvenience to the users.

The Plate is made in one piece and is of Cast-Iron—Galvanised to prevent Corrosion—and although fixed between the tubs there is no risk of cleavage, as the double flange bearing upon the tubs counteracts this tendency. The ends of Plate are chequered on both sides to give Wringer screws a secure hold, and any ordinary size of Wringer can be fixed to same.

—
HANDSOMELY FINISHED**Height 8 Feet. Adjustable Reclining Chairs.**

The above illustration represents our latest idea of Swing. It is seated for two persons, but one can swing on it equally as well. There is no danger of falling off when it is in motion, thus making it the best and safest Swing for children. Being made entirely of selected pitch pine, it is quite strong enough to allow any person to enjoy a swing on it. It requires no one to push it, a slight pressure of the feet on the footboard is all that is necessary to keep it in motion. It folds up into a very small space, and can be taken inside during the winter. When not in use as a swing it makes a capital Garden Seat.

A REMEDY FOR PILES.**RENAZEL SUPPOSITORIES.**

Composed of the active principle of the Adrenal Gland and Witch Hazel Extract, it is in no sense an exaggeration to describe these as a marvellous Cure for Piles. The efficacy of the Adrenal Gland has only been discovered quite recently. The Medical Journals contain almost weekly references to its wonderful effect on the mucuous membrane. It stops bleeding as no other drug is able to do, and its astringent effect is exactly what is required to reduce the painful swellings of Hæmorrhoids or Piles. The curative effect of these Suppositories is exerted on parts quite out of reach of ordinary treatment.

These Suppositories are an Absolute Remedy for this painful malady.

INSURANCE AGAINST FRAUD AND EMBEZZLEMENT.

The question of FRAUD by trusted Officials is so frequently brought into public prominence that the necessity of Employers holding adequate security on behalf of responsible persons whom they employ must be freely admitted. It is the obvious duty of Members of School Boards, Parish and County Councils, Directors of Public Companies, Committees of Charitable Institutions, Friendly Societies, &c., to see that proper security is held on behalf of those whose funds they administer, and the moral and financial safeguard of a Guarantee Policy issued by a good Office should commend itself.

The Premiums charged by THE NATIONAL GUARANTEE AND SURETYSHIP ASSOCIATION are based on the statistics of upwards of forty Years Experience, and a full Prospectus, containing an approximate table of rates for the various classes of risk, will be sent on application. Special quotations are given where a large amount of business is involved.

The Association is prepared to grant immediate security to ACCOUNTANTS, SOLICITORS, AND OTHERS in connection with Court Appointment, and will give full particulars of the special facilities afforded on application.
